Healthcare in Australia

We draw on over 65 years experience and understand that healthcare can be confusing to new visitors. That's why we aim to provide the best advice and support to help you find what's right for your needs.

What is Medicare?

Medicare is Australia's public healthcare system – for all citizens, permanent residents, and some applicants for permanent residency. It provides free or subsidised cover for certain healthcare services.

The Private Healthcare System

The private system includes health insurers like Bupa, who work with Medicare to provide Australians with access to medical services and health providers.

Do I have access to Medicare?

If you're applying for a student visa, a current student or looking to extend your student visa you will not generally have access to Medicare.*

*Students from reciprocal health countries may have access to Medicare for some services, however may still require OSHC. Visit https://www.humanservices.gov.au/customer/enablers/health-care-visitors-australia
